Foreign Entities

Realm Resources Limited controlled Alumicor SA Holdings Limited and Realm Resources SA (Proprietary) Limited during the half year period. International Financial Reporting Standards were used in compiling the reports for the South African entities.

Commentary on the results for the period:

Refer to the attached half yearly report. Net loss attributable to members for the half year ended 30 June 2011 was \$1,345,524 (June 2010: \$694,016 loss), primarily this was due to due diligence costs on the Katingan Ria Coal Project. During the period Alumicor's tolling customer, Hulamin, agreed to an increase in the tolling fee this resulted in improved revenues at Alumicor. The other significant source of income is finance income derived from interest on cash assets and receivables, this has increased to \$209,254 (2010: \$207,313).

COAL DIVERSIFICATION STRATEGY PROGRESS

As announced on 12 April 2011, the Company has an exclusive option to acquire all of the issued capital in Kalres Limited (**Kalres**), for an aggregate consideration of US\$29.6 million and the issue of 15 million performance rights. Should the acquisition proceed, Realm will effectively have a 75% interest in the Katingan Ria project.

The Katingan Ria Project is an advanced thermal coal exploration project with the potential to progress to mining within 12 months. The project covers 5,053 hectares under Mining Business Permit for Exploration (IUP Exploration) No. 274. It is located in Central Kalimantan within the Katingan Hulu district, approximately 175km North West of the regional capital of Palangkaraya.

Kalres is a party to a Master Agreement with PT Sinar Mulia Anugerah Aguing (**PT SMAA**), under which Kalres can acquire up to a 75% interest in an Indonesian coal company, PT Katingan Ria (**PTKR**), which holds the Katingan Ria Project.

At present, Realm is nearing finalisation of its due diligence on Kalres, PT SMAA and PTKR in accordance with the terms of the Master Agreement and as part of the Company's strategy to identify and develop opportunities in the bulk commodity sector.

40.5 million tonne inferred JORC Resource delineated in Southern Area

As announced to the ASX on 11 July 2011, Realm has identified an initial 40.5 million tonne inferred resource estimate for the Southern area of the Katingan Ria Project. The deposit has relatively low stripping ratios (average approximately 3:1).

Table 1: JORC Resource Estimate (Main Seam – Southern area)

Main Seam	Coal Mass Tonnes Insitu (x 10 ⁶)	Av. Coal Thickness (m)	Coal RD Insitu	Total Moisture %	Inherent Moisture % (Adb)	Raw Ash % (Adb)	Raw Volatile Matter % (Adb)	Raw Sulphur % (Adb)	Raw Specific Energy Kcal/Kg (Adb)	HGI

Directors' report (continued)

A scoping study on the feasibility of developing an initial 3mtpa open pit operation has commenced focussed on the Southern area, with coal quality data and logistics studies incorporated.

In parallel, drilling in the Northern area is expected to confirm the existence of additional resources which outcrop at various locations and mapped at over 6 metre seam thickness.

The resource estimate was based on the main seam only, drill spacing of approximately 1 km and publically available terrain elevation data. In order to improve the JORC classification to indicated status, further work is required to upgrade the topographical resolution. This work is planned to commence subject to Realm acquiring the asset.

In the mean time, further coal quality test work will be undertaken on outcrop samples. No washability test work is planned at this stage. Due to the relatively low levels of ash, the coal is likely to require only crushing and screening to produce a marketable product thus obviating the need for a coal handling and preparation plant.

A number of haul road and barge to port options have been identified. The haulage route will utilise existing logging roads which vary from 30-45km in distance from the project site to the Katingan River. The barge to port route is approximately 420km on river to the coast.

River bathymetric data for the length of the Katingan River was sourced and is currently under review primarily to identify any potentially un-navigable waters. Whilst logging operations continue year round on 180 foot barges, the likely requirement for dredging parts of the river to reduce costs through the use of larger barges of up to 300 foot is being evaluated by Realm in conjunction with PTKR. Intermediate stockpile locations are also being evaluated in conjunction with PTKR and the local government.

Discussions have also been held with a number of barge operations groups within the region to better determine the operational cost and logistics framework, given that no coal mining operations currently exist on this river.

Marketing

Coal marketing study work is in progress and a Memorandum of Understanding has been signed with Coeclerici for the provision of initial marketing support services to the Katingan Ria Project within the markets of Indonesia, India and northern Asia.

PLATINUM GROUP METALS

As announced on 26 May 2011, Realm has strengthened the Company's existing portfolio of platinum group metals (**PGM**) projects in South Africa, by signing a farmin agreement (**Farmin Agreement**) with Nkwe Platinum (Rooderand) (Pty) Ltd (**Nkwe**), a company in which Nkwe Platinum Limited (ASX: NKP) holds a 70% interest.

Under the terms of the Farmin Agreement, Realm can earn a 51% interest in the prospecting rights for PGM, gold, silver, nickel, copper and cobalt granted in respect of Nkwe's Rooderand prospect (**Rooderand Prospect**) by spending \$2 million in expenditure over a two year period.

Nkwe's Rooderand Prospect covers 535ha and is located on the Western Limb of the Bushveld Igneous Complex adjacent to Platinum Australia Limited's Rooderand platinum project and Platmin Limited's Pilanesberg open pit platinum mine.

Directors' report (continued)

Over 20 holes were drilled on the Rooderand Prospect (during the period between 2004 and 2006) and an inferred Merensky Reef and UG2 chromitite resource of 36.7 Mt @ 3.8 g/t containing 4.5 Moz (3PGE +Au) has been defined. The Merensky and UG2 reefs are relatively close to each other in this area and are separated by around 20-35m thereby enhancing the economics for open pit mining. The Merensky and UG2 reefs dip to the South and occur from surface.

Material terms of the Farmin Agreement

Upon renewal of the prospecting rights for PGM, gold, silver, nickel, copper and cobalt granted in respect of the Rooderand Prospect, Realm has a two year period (**Sole Funding Period**) in which it can earn an undivided 51% interest in such prospecting rights by:

- (a) spending \$2 million on exploration and development; or
- (b) paying to Nkwe an amount equal to the difference between \$2 million and the amount of expenditure spent by Realm during the Sole Funding Period (**Adjustment Amount**).

In addition, subsequent to 30 June 2011, Realm has issued 5,000,000 shares in the capital of the Company to Nkwe's nominee.

During the Sole Funding Period, Realm will be the manager of the Rooderand Prospect. Realm will also be solely responsible for the administration and maintenance of the Rooderand Prospect and complying with any minimum annual expenditure requirements during the Sole Funding Period. An expenditure plan will be drawn up once the prospecting rights are renewed.

If Realm fails to spend \$2 million in expenditure on the Rooderand Prospect or pay Nkwe the Adjustment Amount during the Sole Funding Period, the Farmin Agreement will terminate and Realm will have no interest in the Rooderand Project.

During the Sole Funding Period, neither Realm or Nkwe may assign its rights or obligations under the Farmin Agreement without the prior consent of the other (which must not be unreasonably withheld or delayed).

Upon Realm acquiring a 51% interest in the prospecting rights granted in respect of the Rooderand Prospect, Realm and Nkwe will enter into a joint venture on the terms and conditions set out in the Farmin Agreement.

Eastern Limb Platinum Projects Update

Realm has been actively following up the Section 11 applications lodged in respect of the Kliprivier, Ghost Mountain and Tinderbox projects located on the Eastern Limb of the Bushveld Igneous Complex in South Africa. Recent correspondence with the South African Department of Mineral Resources has been positive and would indicate that the applications have progressed and could be approved within the third quarter of 2011. Approval of the Section 11 applications will enable the Company to finalise the acquisition of the three PGM tenements comprising the Kliprivier, Ghost Mountain and Tinderbox projects. In total, these projects contain an inferred resource of 109.6Mt @ 2.3g/t (3PGE+Au) containing 7.6Moz of PGMs (undiscounted). The Company is assessing ways to maximise the value of its PGM portfolio including the development potential of an open pit operation along 6 km of near surface outcrop of the UG2 reef horizon on the priority Kliprivier project.

Directors' report (continued)

REVIEW OF RESULTS AND OPERATIONS

The Group has recorded revenue from continuing operations of \$2,695,443 (2010: \$2,494,921) and a net loss for the half year ended 30 June 2011 of \$1,237,454 versus a loss of \$659,047 for the half year ended 30 June 2010.

ALUMICOR SA PTY LTD (RRP - 74%)

Realm Resources' subsidiary, Alumicor SA ("Alumicor"), treats aluminium dross and returns aluminium to Hulamin Limited ("Hulamin") on a toll conversion fee basis.

Health and Safety

There were no disabling injuries during the period. The focus on safety training and monitoring continues. The disabling injury frequency rate (DIFR) for the June Quarter was 3.8%.

Operations

During the period, there was a significant increase in volumes treated through the plant, with Hulamin increasing their output in addition to delivery of test batches of scrap to Alumicor. Together with Hulamin, Alumicor continues investigating sourcing additional dross and scrap that should see a continuation of volumes increasing during 2011.

Financial- Alumicor SA Holdings Proprietary Limited

Following the improvement in throughput volumes in the period, operating profitability improved. Management of operating costs continues together with efforts to improve processes, safety and environmental standards.

BUSINESS DEVELOPMENT

The Company is focussed on diversifying into coal and continues to seek value optimistation strategies for the PGM business and seek complimentary value-adding opportunities in the resource sector.

CORPORATE

During the period under review 4,000,000 shares were issued under the share plan.

Directors' report (continued)

EVENTS SUBSEQUENT TO BALANCE DATE

Nkwe Platinum (Rooderand) (Pty) Ltd

During the period, the company entered into an agreement with Nkwe Platinum (Rooderand) (Pty) Ltd ("Nkwe") to purchase a 51% interest in a prospecting right granted in respect of platinum group minerals of Farm Rooderand 46 JQ, located in the north western rim of the Pilanesberg National Park in South Africa ("the tenement").

In order to purchase this 51% interest, the company must:

- pay an amount of \$2,000,000 to Nkwe Platinum (Rooderand) (Pty) Ltd, less any expenditure
 incurred by the company in relation to the exploration, development and mining of the
 tenement ("the funding amount");
- pay the funding amount prior to 21 May 2013.

Should the company not satisfy the above conditions, the agreement will terminate and, other than costs incurred up to the date of termination, the company will terminate its rights, entitlements and obligations under the agreement and it shall have no interest in the tenement.

As part of this agreement, the company agreed to issue 5,000,000 fully paid ordinary shares to Nkwe or its nominee. These shares were issued subsequent to year end.

Notes to the Financial Statements for the half year ended 30 June 2011

Note 1: Basis of preparation

The half-year consolidated financial statements are a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001*, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretations and other authorative pronouncements of the Australian Accounting Standards Board ('AASB').

This half-year report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the group as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 31 December 2010 and any public announcements made by Realm Resources Limited and its subsidiaries during the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001* and the ASX Listing Rules.

The half-year report has been prepared on a historical cost basis, as modified by the revaluation of assets and liabilities acquired as part of a business combination. Cost is based on the fair value of the consideration given in exchange for assets. The company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the half-year report, the half-year has been treated as a discrete reporting period.

The accounting policies are consistent with those of the previous financial year and corresponding interim reporting period.

Significant accounting judgements and key estimates

The preparation of interim financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this half-year report, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 31 December 2010.

Adoption of new and revised Accounting Standards

In the half-year ended 30 June 2011, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 January 2011.

It has been determined by the Group that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore no change is necessary to Group accounting policies.

Notes to the Financial Statements for the half year ended 30 June 2011

Note 2: Segment Information

Description of Segments

Management has determined the operating segments based on the reports reviewed by the executive directors that are used to make strategic decisions.

The executive directors consider the business from both a product and a geographic perspective and has identified two reportable segments. Alumicor, in South Africa, which toll treats aluminium dross (this segment was established in August 2008), and Masedi Platinum (Proprietary) Limited and Nkwe Platinum (Scarlet) (Proprietary) Limited, in South Africa, which hold platinum resource tenements.

Segment information provided to the Managing Director

The segment information provided to the Managing Director for the reportable segments for the half year ended 30 June 2011 is as follows:

(b) Option and share pricing model:

Equity - settled transactions

The fair value of the shares granted under the OP and SP is estimated as at the date of grant using a Black Scholes option pricing model. Expected volatility is based on the historical share price volatility.

The following table lists the inputs into the models used for the period ended 30 June 2011, and the year ended 31 December 2010.

	Grant date share	Exercise	Expected	Option	Dividend	Risk–free interest	Weighted average share price at	
OP	price	price	volatility	life	yield	rate	measurement date	
2011	\$	\$	%	(years)	%	%	\$	Model used Black -
1,000,000	0.09	0.15	89	4	-	5.093	0.10	Scholes
SP 2011	Grant date share price \$	Exercise price \$	Expected volatility %	Option life (years)	Dividend yield %	Risk–free interest rate %	Weighted average share price at measurement date \$	Model used Black -
4,000,000	0.09	0.15	89	4	-	5.093	0.10	Scholes
OP 2010	Grant date share price \$	Exercise price	Expected volatility %	Option life (years)	Dividend yield %	Risk-free interest rate %	Weighted average share price at measurement date \$	Model used Black -
2,500,000	0.10	0.15	90	2	-	4,591	0.032	Scholes
SP 2010	Grant date share price \$	Exercise price \$	Expected volatility %	Option life (years)	Dividend yield %	Risk-free interest rate %	Weighted average share price at measurement date	Model used
Nil	-	-	-	-	-	-	-	-

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical sector volatility is indicative of further trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

Nkwe Platinum (Scarlet) (Proprietary) Limited	1,131,213	1,131,213		
Investments in associates	2,206,080	2,206,080		

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting and are carried at cost, less any allowance for impairment.

The Group now owns 47.5% of Masedi Platinum (Proprietary) Limited ("Masedi") and 49.99% of Nkwe Platinum (Scarlet) (Proprietary) Limited ("NPS"), acquired by issuing 15,214,348 shares in the Company, valued at date of acquisition at \$0.145 per share during the year ended 31 December 2009. Stage 2 of the acquisition transaction, which would result in acquisition of further shares in Masedi and NPS, is dependent upon Ministerial Consent from the South African Minister of Minerals and Energy for the acquisition of a controlling interest in terms of Section 11 of the Mining Act in South Africa for the transfer of the assets to Realm. If Ministerial approval is received, Realm will achieve 74% ownership of Masedi and NPS, the balance being held by a local Black Economic Empowerment ("BEE") partner. Management expects completion to occur in Q3 2011 with the issue of a further 15,220,435 shares.

(b) Fair values

The fair values of the Group's investment in Masedi Platinum (Proprietary) Limited and Nkwe Platinum (Scarlet) (Proprietary) Limited are as set out in note 5(c) below.

(c) Summarised financial information

The following table illustrates summarised financial information relating to the Group's associates:

Note 5: Non-current assets – investments in associates accounted for using the equity method (continued)

(d) Impairment

For the purpose of impairment testing, the company obtained an independent valuation from Al Maynard & Associates Pty Ltd, Consulting Geologists, dated 29 March 2011, which indicates that the current cash value range for the associates' mineral properties is in excess of the carrying amount of the investment in associates as above.

At 30 June 2011, the directors believe that the independent valuation obtained from Al Maynard and Associates Pty Ltd, dated 29 March 2011, represents the latest information available to the directors, and therefore the directors believe that the current cash value range for the associate's mineral properties is in excess of the company's amount of the investment in associates as above.

Note 7: Contingent liabilities

There are no material contingent liabilities as at 30 June 2011.

Notes to the Financial Statements for the half year ended 30 June 2011

Note 8: Other commitments

As disclosed in note 5, if the Company receives Ministerial Consent from the South African Minister of Minerals and Energy for the controlling interest in Masedi and NPS, the company will issue:

- (i) an additional 15,220,435 shares in the company to acquire the controlling interests of Masedi and NPS; and
- (ii) an additional 34,775,652 shares in the company to the vendors of Morning Star Holdings (Australia) Pty Limited (formerly known as Realm Resources Limited) (the vendors being the previous shareholders of Morning Star Holdings (Australia) Pty Limited).

Note 9: Alumicor SA Holdings Proprietary Limited

The company's 74% owned subsidiary, Alumicor Maritzburg (Pty) Ltd ("Alumicor"), has an agreement where its major customer, Hulamin Ltd ("Hulamin"), has an option to purchase the business of Alumicor for approximately South African Rand 31,000,000 (approximately \$4.3m, based on exchange rates as at 30 June 2011).

Should Hulamin exercise its option to purchase the business of Alumicor, Realm Resources Limited would sell its aluminium dross treatment process to Hulamin for approximately \$4.3m. Results attributable to the Alumicor business, including total assets and liabilities, are disclosed in note 2.

Note 10: Events after the balance sheet date

Nkwe Platinum (Rooderand) (Pty) Ltd

During the period, the company entered into an agreement with Nkwe Platinum (Rooderand) (Pty) Ltd ("Nkwe") to purchase a 51% interest in a prospecting right granted in respect of platinum group minerals of Farm Rooderand 46 JQ, located in the north western rim of the Pilanesberg National Park in South Africa ("the tenement").

In order to purchase this 51% interest, the company must:

- pay an amount of \$2,000,000 to Nkwe Platinum (Rooderand) (Pty) Ltd, less any
 expenditure incurred by the company in relation to the exploration, development and
 mining of the tenement ("the funding amount");
- pay the funding amount prior to 21 May 2013.

Should the company not satisfy the above conditions, the agreement will terminate and, other than costs incurred up to the date of termination, the company will terminate its rights, entitlements and obligations under the agreement and it shall have no interest in the tenement.

As part of this agreement, the company agreed to issue 5,000,000 fully paid ordinary shares to Nkwe or its nominee. These shares were issued subsequent to year end.

Directors' declaration

In the director's opinion:

- (a) The interim financial statements and notes set out on pages 9 to 20 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standard AASB134 Interim Financial Reporting, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
 - (ii) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the half year ended on that date; and
- (b) there are reasonable grounds to believe that Realm Resources Limited will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Realm Resources Limited:

We have reviewed the accompanying half-year financial report of Realm Resources Limited ("the Company") which comprises the statement of financial position as at 30 June 2011, the statement of comprehensive income, statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, other selected explanatory notes and the directors' declaration of the consolidated entity as set out on pages 9 to 21. The consolidate entity comprises the Company and the entities it controlled at the half year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Realm Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

Our review did not involve an analysis of the prudence of business decisions made by directors or management.

INDEPENDENT AUDITOR'S REVIEW REPORT (continued)

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Realm Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Realm Resources Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
