QUARTERLY UPDATE

- Continuing focus on Katingan Ria's domestic coal supply strategy
- Rooderand platinum transaction with Chrometco Ltd nears completion
- Alumicor discussions progressing with potential investors/buyers
- Business development activities aimed at enhancing and/or realising the value of Realm's assets as well as seeking new resource sector investment opportunities, particularly those with near term cash generation potential

Realm Resources Ltd. (ASX: RRP) ("Realm" or the "Company") is pleased to provide an update on activities during the quarter.

Katingan Ria Coal Project – Focussed on Domestic Power Station Supply

The Company continued to engage with PLN (Indonesian State owned Electricity Corporation) and other potential partners/buyers in order to progress its power station strategy. Realm is focussing on establishing a consortium to prepare for the Kalselteng No.3 (2x100MW) process later this year, and possibly Kalselteng No.1 (2x100MW) as well, should that become available (Figure 1).

In addition, Realm continues to keep its 51% holding in good standing and progress permitting as required.

The thermal coal price for expected Katingan Ria coal (i.e. 4,200 kcal/kg GAR) has declined further to US\$26.00/t at the time of writing. This together with the slow pace of Government action is limiting interest in the project and the coal sector as a whole.

South African Projects

In South Africa, the Rooderand transaction with Chrometco Limited ("CMO") was advanced following the receipt of Section 11 consent for the transfer of mineral rights (Refer to CMO JSE announcement 30th September 2015). This is a further major milestone towards the completion of the transaction, which will result in a combined mining right for chrome, platinum group metals and other metals on the remainder portion of Rooderand. On completion of the transaction, an additional 35m JSE:CMO shares will be issued to Realm (Realm will then hold 45m shares).

In Aluminium, the focus remains on the search for potential investors/buyers seeking exposure to the re-cycling sector as well as improving the financial and operational performance of Alumicor.

Alumicor continues to operate profitably and deliver cash flow with management's attention focussed on sourcing additional metal units (with Hulamin's assistance) to be processed at the facility. In addition, management continues to assess a number of growth projects in the rapidly expanding aluminium recycling space, and has embarked on a process to seek funders and/or partners seeking exposure to or interested in developing the business.

Business Development

On the business development front, numerous resource sector opportunities continue to be reviewed, with the focus directed at projects or mines with near term cash generation capacity, largely in the coal, base and precious metals sector.

Financial results

Referring to the attached 5B schedule, net operating cash outflows were AUD\$57,000 for the quarter (inflow of AUD\$84,000 in the prior quarter).
